Independent Auditor's Report

Honorable Mayor and Borough Assembly Petersburg Borough

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Petersburg Borough, Alaska, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Petersburg Borough, Alaska, as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, in 2013, Petersburg Borough adopted the provisions of Governmental Accounting Standards Board (GASB) Statement number 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and the provisions of GASB Statement number 65, *Items Previously Reported as Assets and Liabilities*. These provisions have been retrospectively applied to all periods presented in these financial statements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and budgetary comparison information on pages 14 through 25 and 66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit for the year ended June 30, 2013 was conducted for the purpose of forming opinions on the financial statements that collectively comprise Petersburg Borough's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, Schedule of State Financial Assistance, and the combining and individual fund financial statements and schedules listed in the table of contents for the year ended June 30, 2013 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Nonprofit Organizations and the Schedule of State Financial Assistance is required by the State of Alaska Audit Guide and Compliance Supplement for State Single Audits. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements for the year ended June 30, 2013 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2013.

Petersburg Borough's basic financial statements for the year ended June 30, 2012 (not presented herein), were audited by other auditors whose report thereon dated October 3, 2012, expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information. The report of the other auditors dated October 3, 2012, stated that the individual fund financial statements and schedules for the year ended June 30, 2012 were subjected to the auditing procedures applied in the audit of the 2012 basic financial statements and certain additional auditing procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those basic financial statements or to those basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and, in their opinion, were fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2012.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 6, 2013, on our consideration of Petersburg Borough's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Petersburg Borough's internal control over financial reporting and compliance.

Management's Discussion and Analysis

This section offers readers of the Petersburg Borough's financial statements a narrative overview and analysis of the financial activities of the Borough for the fiscal year that ended June 30, 2013. The intent of this section is to provide the reader with some comparative discussion and analysis. We encourage readers to consider the information presented here in conjunction with the Borough's financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of the Borough exceed its liabilities at the close of the
 most recent year by \$120 million. Of this amount, \$26.5 million (unrestricted net assets)
 is legally unreserved and may therefore be used to meet the Borough's ongoing obligations
 to citizens and creditors.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$3.9 million and was available for spending. The unassigned fund balance for the General Fund represented 46% of total General Fund expenditures exclusive of transfers out.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Petersburg Borough's basic financial statements. The Borough's basic financial statements are comprised of three components: 1) Government-wide financial statements, 2) Fund financial statements, and 3) Notes to the basic financial statements.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the Borough's finances. The *Statement of Net Position* and the *Statement of Activities* provide information about all of the Borough's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position serve as a useful indicator of whether the financial position of the Borough is improving or deteriorating.

The Statement of Activities provides information which shows how the Borough's net position changed as a result of the year's activities. The statement uses the accrual basis of accounting, which is similar to the accounting used by private-sector businesses. All of the revenues and expenses are reported regardless of the timing of when cash is received or paid.

The government-wide financial statements distinguish functions of the Borough that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Borough include general government, public safety, public works, community development, parks and recreation, library and community services. The business-type activities of the Borough include the electric, water, sewer and sanitation utilities; the port and harbors; elderly housing and assisted living facilities; and the motor pool operations.

Management's Discussion and Analysis

Fund Financial Statements. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Fund financial statements also report the Borough's operations in more detail than the government-wide statements by providing information about the Borough's most significant funds. The Petersburg Borough, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Petersburg Borough can be divided into two categories: governmental funds and proprietary funds (also known as enterprise funds and internal service funds).

• Governmental Funds. Most of the Borough's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. This information is useful in evaluating a government's short-term financial requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it provides information that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Borough's programs.

The financial statements include a balance sheet and a statement of revenues, expenditures and changes in fund balance, beginning on page 30. The Borough has two major governmental funds, the General Fund and the Library Construction Capital Project Fund. Data from thirteen other governmental funds are combined into a single, aggregated presentation, labeled the Non-major Funds. The thirteen Non-major governmental funds report revenues and expenditures for: Miscellaneous Grants, National Forest Receipts - Schools, National Forest Receipts - Streets & Roads, Property Development, E911 Surcharge, Borough Organizational, Debt Service, Library Construction, Fishing Park, Birch Street Rebuild, Downtown Paving Project, Rasmus Enge Bridge, and Economic Development. The combining financial statement presentation for the Non-major funds can be found on pages 68 and 69 of this report.

The Borough adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided as required supplementary information to the basic financial statements for the General Fund to demonstrate compliance with these budgets. The basic governmental fund financial statements can be found on pages 30-33 of this report.

• Proprietary Funds. The Borough's Enterprise Funds and Motor Pool Internal Service Fund report the same functions presented as business-type activities in the government-wide financial statements but provide more detail and additional information, such as cash flows. The Proprietary Funds are made up of five major Enterprise Funds: the Electric, Water and Wastewater Utility Funds; the Port & Harbor Fund; and the Assisted Living Facility Fund. The Borough has two non-major Enterprise Funds: the Sanitation and Elderly Housing Funds and one Internal Service Fund, the Motor Pool Fund.

Notes to the Financial Statements. The notes to the financial statements begin on page 40. The notes provide information that is essential to gain a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information.

Management's Discussion and Analysis

The combining balance sheet and statement of revenues, expenditures, and changes in fund balance for the non-major governmental funds are presented on pages 68-69. Other combining and individual fund statements and schedules can be found on pages 70 through 127.

Government Wide Financial Statements

Net position serves over time as a useful indicator of a government's financial position.

In the case of the Borough of Petersburg, assets and deferred outflows exceeded liabilities by \$120,246,833 at the close of the most recent fiscal year. This was an increase of \$2,126,842 from the previous year.

The largest portion of the Borough's net position, 74.2%, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment); less any related debt used to acquire those assets that is still outstanding. The Borough uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. A substantial portion of these capital assets were paid for with the assistance of Federal and State grants.

Management's Discussion and Analysis

Governmental Activities

Governmental activities increased the Borough's net position by \$3.6 million. Key elements of this follows:

- o The National Forest Receipts School Fund retained \$336,836 of the \$984,038 payment the fund received this year increasing the year end fund balance to \$4.35 million.
- o The Borough Organizational Fund was created and retained a balance of \$253,536 at fiscal year end.
- o GO Bonds in the amount of \$1.3 million for the construction of the new library project were issued in the fall of 2012.

The net position for the Borough's governmental activities is \$52.6 million. A substantial portion (70%) of the net position is invested in capital assets net of related debt. The Borough uses these assets to provide services to the citizens. The unrestricted net position of the governmental activities is \$11.5 million as of June 30, 2013.

Business-type Activities

The net position for the Borough's business-type activities is \$67.6 million, a decrease of \$1,514,520. This is due to the disposal of capital assets in the Harbor. As with governmental activities, a substantial portion (78%) of the net position is invested in capital assets net of related debt. The Borough uses these assets to provide services to the citizens.

The unrestricted net position of the business-type activities was \$15 million as of June 30, 2013. This is an increase in unrestricted net position of \$831,867. This change is primarily caused by a much larger Fisheries Business tax received by the Harbor in the amount of \$636,384, compared to \$265,901 in FY 2012. Also to note, the Assisted Living Facility dissolved their negative \$283,060 unrestricted net position with a positive \$7,117 unrestricted net position at the end of the fiscal year.

Figure 1 shows governmental activities, expenses and the related revenues dedicated to each activity. It shows the amount of dedicated revenues associated with the various kinds of activities, exclusive of other revenues. Other revenues also support government activities, but are general in nature and apply to all categories, so they are not included in this graph. They include property and sales taxes, payments in lieu of taxes, investment income, and other general revenues. Figure 1 presents a picture of the information that can be found on page 29 of the financial statements.

Management's Discussion and Analysis

Figure 1

Expenses and Program Revenues-Governmental Activities

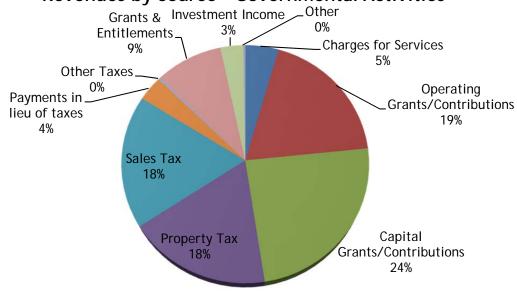

Governmental Activities

Figure 2 shows the percentages of all revenue sources for governmental activities, both program and general. In 2013, sales taxes and property tax each totaled 18% of revenues, both decreasing 1% from the prior year's proportion composition.

Figure 2

Revenues by Source - Governmental Activities

Management's Discussion and Analysis

Business Type Activities. Net position decreased by \$1.5 million for the Borough's business-type activities.

Figure 3 shows expenses and program revenues for all of the business-type activities. Not included in the program revenues are capital grants and contributions, investment earnings, transfers, and some other miscellaneous revenues. Depreciation is included in the expenses. All funds show expenses in excess of revenues, except the Sanitation Utility Fund. It should be noted that covering depreciation of capital assets is difficult when a large portion of the Borough's infrastructure was originally paid for by capital grants or with the assistance of grants.

Management's Discussion and Analysis

Financial Analysis

As noted earlier, the Petersburg Borough, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Borough can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds. The focus of the Petersburg Borough's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Petersburg Borough's financing requirements. In particular, unassigned fund balance serves as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Petersburg Borough's governmental funds reported combined ending fund balances of \$14,393,561, an increase of \$974,576 in comparison with the prior year. This increase is mainly due to remaining library GO bonds issued this year and the Borough Organizational funds that were received from the State of Alaska as a result of borough formation.

The total fund balances of the governmental funds are made up of five components. \$61,800 nonspendable, which is the General Fund's prepaid health insurance, \$4,425,761 restricted (National Forest Receipts School and Public Roads funding), \$5,563,245 committed (primarily for economic development and capital projects), \$391,468 assigned (Debt Service and Borough Organizational), and \$3,951,287 unassigned.

The General Fund is the chief operating fund of the Borough. At the end of the current fiscal year, the unassigned fund balance was \$3,951,287, while total fund balance was \$4,013,087. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 46% of total General Fund expenditures. This is an increase of 4% from the previous year. Prior years 2010 and 2011 had shown an increase of 3% and 1% from the prior year, 2012 had actually shown a decrease of 2% from the prior year.

Proprietary funds. The Borough's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

- The Electric Utility Fund's unrestricted net position was \$6,451,334, a decrease of \$1,610,947 from the prior year. This decrease is mainly due from transferring \$1,260,000 to the North Harbor project to assist in electrical costs associated with the project.
- The Water Utility Fund's unrestricted net position was \$577,648, an increase of \$141,192.
- The Wastewater Utility Fund's unrestricted net position totaled \$1,231,375 at the end of the year, an increase of \$163,636.
- The Sanitation Utility Fund is showing a large increase in this year's unrestricted net position due to funds appropriated from the Harbor and Property Development Fund for the Landfill Slope Stabilization project. Unrestricted funds were \$868,558 which is an increase of \$380,171 from the prior year.

Management's Discussion and Analysis

- The Harbor Fund increased its unrestricted net position by \$1,466,155, for a total of \$3,113,230. The majority of this is committed to the North Harbor Project, with only \$164,537 of the \$3.1 million in the harbor operating fund.
- The Elderly Housing Facility's unrestricted net position showed a slight increase in fiscal year 2013 of just \$6,188.
- The Assisted Living Fund reduced their deficit and present an unrestricted net position of \$7,117 at year end. This is due in part from the transfer of General Fund property tax revenue for debt retirement, a \$100,000 subsidy from the General Fund, and raising rates during the year. This is the facility's first year that it has ever had a positive unrestricted fund balance since the facility was completed in 2004.
- The Motor Pool Fund's unrestricted net position increased to \$4,166,866 (13%) from the prior year 2012, which is similar from the 11% increase of the prior year of 2011.

General Fund Budgetary Highlights

- The General Fund showed a surplus of \$292,408 after transfers in and transfers out.
- Sales Tax had a positive variance of \$52,431.
- The General Fund transferred out a \$100,000 subsidy as well as the property tax collected for debt retirement on the Assisted Living GO bond.
- Fisheries Business tax showed a positive variance of \$286,385 from what was budgeted, that additional revenue was transferred out to the Harbor Fund which is shown in the negative variance of the same amount in transfers out.
- General government other, contains the State PERS Relief expense which had a negative variance of \$181,838. This is explainable as the PERS On behalf revenue showed a positive \$181,838 variance. This is the amount the State subsidized the General Fund for retirement costs for our employees. The excess revenue and the excess expense offset each other.

Capital Asset and Debt Administration

Capital Assets. As of June 30, 2013, the Borough had invested \$109,631,423 in capital assets net of accumulated depreciation as presented in Table 3. This investment includes land, buildings, improvements, machinery and equipment, infrastructure, and construction in progress. This is an increase over the previous year of \$919,301.

Major capital asset additions during the current fiscal year include the following:

- \$4.2 million was spent in fiscal year 2013 on the new Library capital project.
- \$276,279 was spent in FY 2013 as the 9% match to DOT funds dedicated to the downtown paving project.

Management's Discussion and Analysis

- Ira II Playground received \$17,313 in rubber & ground area improvements to help level out the land area not supported by piling. \$10,000 of this amount was paid for by an insurance grant.
- Second Street and Odin Street received paving this year (\$167,441).
- The Borough's first virtual server was purchased for the cost of \$10,089.
- A new E911 system was purchased for the cost of \$234,320 including installation, a homeland security grant in the amount of \$100,000 went toward this purchase. The remainder was paid from the Borough's E-911 Surcharge Fund.
- \$129,810 was spent on radio replacement borough wide to upgrade per new federal regulations.
- \$862,434 was capitalized on three projects, the Hydro project, Auto Load Control system, and the 24.9 KV Electric Upgrade.
- Water Treatment Plant Phase III was nearly completed. \$1.6 million was spent in fiscal year 2013 rehabilitating the filter tank interior, replacing the drain system, new filter media, new low pressure air scour system, new chemical feed equipment and improvements to the clear well tank. \$1.14 million from grants and loans.
- The Wastewater Fund purchased \$32,555 of Clarifiers and a \$6,513 snow plow. Ongoing projects in fiscal year 2013 are the Pumpstation #1 and #5 Upgrade.
- The Sanitation Fund purchased a new roll up door for the baler facility in the amount of \$11,855. Over \$14,000 was spent on a new computer and scale software. Work was begun on the Landfill Slope Stabilization project.
- The Harbor passenger port facility was capitalized in fiscal year 2013 in the amount of \$2,337,195 as well as the South Harbor Anode Project for \$166,265.
- The Elderly Housing Facility received a new roof in 2013 at a cost of \$322,117. The roof was
 paid for by a State Legislative Grant with grant funds still remaining at the end of the project.
 The Funds remaining were reappropriated to purchase windows and new carpet in fiscal year
 2014 for the aging facility.

The remainder of this page left blank intentionally.

| Total Capital Assets | \$45,780,079 | \$ 42,789,415 | \$ 63,851,344 | \$65,922,707 | \$ 109,631,423 | \$ 108,712,122 |

Additional information on the Borough's capital assets can be found in note 6 on pages 52 through 54 of this report.

Long-term Debt. At the end of the current fiscal year, the Borough had total long-term debt outstanding of \$20,429,955. Of this amount, \$14,180,001 comprises debt backed by the full faith and credit of the government (i.e., general obligation bonds). \$641,599 is employee accrued leave and \$5,645,577 is water and wastewater loans from the Alaska Department of Environmental Conservation. It should be noted that the State reimburses the Borough between 60-70% for a majority of the school G.O. Bond debt service, and that the ADEC loans are at a 1.5% interest rate.

Table 4

The Borough's governmental activity debt increased by \$602,805 during the current year. The Borough's business-type debt increased by \$325,367. Additional information on the Petersburg Borough's long-term debt can be found in note 7 on pages 54 through 58.

Management's Discussion and Analysis

Economic Forecast and Rates for Next Fiscal Year

- Water (2%), Wastewater (4.5%) and Sanitation (2%) rates are set to increase on July 1, 2013.
- The 2013-2014 Fiscal Year budget was approved at a mill rate of 11.14 mills, the prior year was 10.99 mills. The increase is due to the new library GO Bond issued the fall of 2012.
- Employee health insurance premiums increased 12% beginning July 1, 2013.
- Construction projects scheduled for the 2014 fiscal year include Library construction completion, Wastewater SCADA upgrades, Pumpstation #1 and #5 upgrades, completion of the downtown road improvements, Rasmus Enge Bridge, Commercial Drive Down Dock, North Harbor Rebuild, Landfill Slope Stabilization, Crane Dock Upgrade, and other smaller projects.

For a copy of the Fiscal Year 2014 budget go to the Borough's website at www.petersburgak.gov.

Financial Information Contact

The Borough's financial statements are designed to present users (citizens, taxpayers, customers, investors, and creditors) with a general overview of the Borough's finances and to demonstrate the Borough's accountability. If you have questions about the report or need financial information, please contact the Petersburg Borough, Attn: Jody Tow, Finance Director, P.O. Box 329, Petersburg, Alaska 99833 or e-mail jtow@petersburgak.gov.

Reconciliation of Governmental Funds Balance Sheet to Statement of Net Position

June 30, 2013

| Total fund balances for governmental funds | | \$ 14,393,561 |
|--|--------------|---------------|
| rotat rand batanees for governmental rands | | \$ 14,373,301 |
| Total net position reported for governmental activities in the | | |
| Statement of Net Position is different because: | | |
| Capital assets used in governmental activities are not financial | | |
| resources and therefore are not reported in the funds. These | | |
| assets, net of accumulated depreciation, consist of: | | |
| Land and land improvements | \$ 3,574,725 | |
| Construction in progress | 4,799,199 | |
| Buildings | 43,260,678 | |
| Improvements other than buildings | 154,948 | |
| Infrastructure | 16,747,551 | |
| Machinery and equipment | 1,998,879 | |
| Accumulated depreciation | (27,072,278) | |
| Total capital assets | | 43,463,702 |
| An internal service fund is used by the Borough to charge the cost | | |
| of certain activities, such as motor pool charges, to individual | | |
| funds. A portion of the assets and liabilities of the internal | | |
| service fund is included in the governmental activities in the | | |
| Statement of Net Position. | | 4,238,484 |
| | | |
| Long-term liabilities, including bonds payable and accrued leave, | | |
| are not due and payable in the current period and therefore are | | |
| not reported as fund liabilities. These liabilities consist of: | (0.707.533) | |
| General obligation bonds payable | (8,707,533) | |
| Deferred loss on refunding, net of accumulated amortization | 206,068 | |
| Bond premium, net of accumulated amortization | (520,625) | |
| Accrued interest | (57,647) | |
| Accrued leave | (347,557) | (0. 427.204) |
| Total long term liabilities | | (9,427,294) |
| Total Net Position of Governmental Activities | | \$ 52,668,453 |

Reconciliation of Change in Fund Balances of Governmental Funds to Statement of Activities

Year Ended June 30, 2013

| Net change in fund balances - total governmental funds | | \$ 974,576 |
|---|----------------|-----------------|
| The change in net position reported for governmental activities in the Statement of Activities is different because: | | |
| Governmental funds report capital outlays as expenditures. However, on the Statement of Activities, depreciation expense is recognized to allocate the cost of these items over their estimated useful lives. This is the amount by which capital outlays (\$5,777,062) exceeded depreciation (\$1,476,705) and other capital asset transactions (\$992,669). | | 3,307,688 |
| The issuance of long-term debt (\$1,150,000) provides current financial resources to governmental funds, while the repayment of the principal of the long-term debt (\$525,837) consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of bond as well as premiums (\$155,882), | | |
| discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized (\$24,173) in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. | | (755,872) |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This is the amount of the decrease in: | | |
| · | 1,358 2,144 | 22 502 |
| The Internal Service Fund is used by management to charge the costs of vehicle operations and the replacement cost of vehicles to individual funds. A portion of the net revenue of these activities is reported with | | 23,502 |
| governmental activities. | | 91,468 |
| Change in Net Position of Governmental Activities | | \$ 3,641,362 |

Notes to Basic Financial Statements Year Ended June 30, 2013

1. Summary of Significant Accounting Policies

Reporting Entity

The City of Petersburg (City) was incorporated in 1910 as a home rule municipality under the laws of the State of Alaska. It operated as a home rule city until January 3, 2013, at which time it was incorporated and certified as a home rule borough by the State of Alaska. On January 3, 2013, the Petersburg Borough (the Borough) was created and the City of Petersburg was dissolved. The Petersburg Borough immediately succeeded to all rights, powers, duties, assets, and liabilities of the former City of Petersburg.

The Borough operates under an assembly-manager form of government and performs municipal duties allowed by Alaska statutes and as directed by its residents.

As required by generally accepted accounting principles, these financial statements present the Petersburg Borough (the primary government) and its component units. The component units discussed below are included in the Borough's reporting entity because of the significance of their operational or financial relationships with the Borough.

The component unit columns in the financial statements include the financial data of the Borough's component units. They are discretely presented in a separate column to emphasize that they are legally separate organizations from the Borough. In addition to the School District, as of FY2013 the Petersburg Medical Center is also included as a component unit pursuant to the provisions of Governmental Accounting Standards Statement number 61.

Petersburg School District is responsible for elementary and secondary education within the Borough. The members of the School Board are elected by the voters; however, the School District is fiscally dependent upon the Borough because the Borough Assembly approves the total annual budget of the School District, levies and remits the local funding contribution, and issues and pays the debt for School construction.

Complete financial statements of Petersburg School District can be obtained from its administrative office at the address below:

Petersburg School District P.O. Box 289 Petersburg, AK 99833

Petersburg Medical Center provides health care, including long-term care, in the Petersburg area. The voters elect the members of the hospital board, who are given the greatest possible autonomy by the Borough Assembly to operate and maintain the hospital. The hospital board approves the annual budget. The Borough Assembly and local voters approve the issuance of any bonds or long-term debt.

Complete financial statements of Petersburg Medical Center can be obtained from its administrative office at the address below:

Petersburg Medical Center PO Box 589 Petersburg, AK 99833

Notes to Basic Financial Statements

Related Organization

Thomas Bay Power Authority (TBPA), a related organization, was formed as a joint venture between the boroughs of Petersburg and Wrangell to operate and maintain the Tyee Lake hydroelectric project. TBPA's board is composed of three members from each community with a seventh member selected by the six that are appointed. The Four Dam Pool Power Agency purchased the Tyee Lake facility along with other hydroelectric facilities in the State from the State of Alaska in January 2002. In February 2009, two of the members of the Four Dam Pool assumed ownership of their respective dams, leaving Thomas Bay Power Authority and one other member remaining. Commensurate with this reorganization, the name was changed to Southeast Alaska Power Agency (SEAPA). The operating costs, excluding the charge for kilowatts used, is shared by Petersburg and Wrangell and is reimbursed each month.

The charge for kilowatts is billed monthly by SEAPA to each Borough based on usage. The accounting for TBPA is handled by the City and Borough of Wrangell. TBPA's financial statements are not included in Petersburg Borough's financial statements.

Complete financial statements of Thomas Bay Power Authority can be obtained from its administrative office at the address below:

Thomas Bay Power Authority P.O. Box 531 Wrangell, AK 99929

The accounting policies of the Borough conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant policies:

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the Borough. In general, the effect of interfund activity has been removed from these statements to minimize the double-counting of internal activities. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely primarily on fees and charges to external parties.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) fees, fines and charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Notes to Basic Financial Statements

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Borough considers all revenues except reimbursement grants to be available if they are collected within 60 days after year end. Reimbursement grants are considered available if they are collected within one year of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only to the extent they have matured.

Property taxes, sales taxes, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when received by the government.

The Borough reports the following major funds:

Major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government except those required to be reported in another fund.

The *Library Construction Capital Project Fund* accounts for the costs associated with construction of the new community center.

Major proprietary funds:

The *Electric Utility Enterprise Fund* is used to account for the operations of the Borough electric utility.

The Water Utility Enterprise Fund is used to account for the operations of the Borough water system.

The Wastewater Utility Enterprise Fund is used to account for the operations of the Borough wastewater utility.

The *Harbor and Port Facilities Enterprise Fund* is used to account for the operations of the Borough harbors and port.

The Assisted Living Enterprise Fund is used to account for the operation of the Borough facility that assists individuals with their every day living tasks.

Notes to Basic Financial Statements

The Borough also reports one Internal Service Fund. The Motor Pool Fund accounts for the cost of operations of the vehicles and the replacement cost of vehicles. This fund reports revenue charged to the other funds based on vehicle usage and estimated replacement costs.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are allocated administration fees and charges between the proprietary funds and the various other funds and departments. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. In addition, general revenues include all taxes, investment income, and State of Alaska entitlement revenues.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for the enterprise funds include the costs of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Central Treasury

A central treasury is used to account for cash from most funds of the Borough to maximize interest income. Investments are stated at fair value. Investment earnings are allocated to most funds based on their respective cash balances. The School District and Hospital maintain separate cash accounts from the Borough.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the proprietary funds consider all cash accounts to be cash and cash equivalents. The central treasury, which holds cash and investments, is used essentially as a cash management pool by each fund.

Inventory

Inventories are valued at the lower of cost or market in the proprietary funds. Cost is determined by the first-in, first-out method. The cost is recorded as an expense at the time individual inventory items are consumed.

Notes to Basic Financial Statements

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "due to / from other funds" (i.e., the current portion of interfund loans) or "advances to / from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to / from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Grants and Other Intergovernmental Revenues

In applying the measurable and available concepts to grants and intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts are considered "earned"; therefore, revenues are recognized based on expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the measurable and available criteria are met.

Property Taxes

Property taxes are assessed on real property on January 1 of each year. Mill rates are established annually by Borough resolution. Tax bills are mailed on July 1 of each year and are due September 30. Property taxes are recorded as revenue when available.

Interfund Transactions

During the course of normal operations, the Borough has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying financial statements generally reflect such transactions as transfers. Operating subsidies are also recorded as transfers.

Compensated Absences

The Borough allows employees to accumulate earned but unused vacation and sick leave benefits. All personal leave is accrued when earned in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental fund financial statements only if they have matured (e.g. the employee has terminated employment).

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Borough as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Notes to Basic Financial Statements

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the useful life of the asset are not capitalized.

Property, plant, and equipment of the Borough is depreciated using the straight line method over the following estimated useful lives:

| | Years |
|----------------------------|-------|
| | |
| Buildings and improvements | 20-40 |
| Infrastructure | 10-50 |
| System infrastructure | 20-50 |
| Machinery and equipment | 3-8 |

Long-Term Debt

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balances

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form—prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balances comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

Restricted fund balance - This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Notes to Basic Financial Statements

Committed fund balance - These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the Borough Assembly—the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Borough Council removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance - This classification reflects the amounts constrained by the Borough's "intent" to be used for specific purposes, but are neither restricted nor committed. The Borough Assembly and Borough Manager have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance - This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the Borough's policy to use externally restricted resources first, then unrestricted resources—committed, assigned, and unassigned—in order as needed.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for expenditures are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund and Special Revenue Funds. Any encumbrances outstanding at year end are reported as appropriate constraints of fund balances only if they meet the definitions and criteria as outlined above.

Unearned Grant Revenue

Amounts received from grantor agencies, which are restricted as to use and have not been expended for the intended use are shown as unearned revenue.

Change in Accounting Principle

The Borough has adopted newly issued GASB pronouncements 63 and 65, resulting in a change in presentation of the government-wide and fund level financial statements. The new pronouncements require reporting two new categories of accounts. Certain items previously reported as assets are now categorized as *deferred outflows*. A *deferred outflow* represents the consumption of the government's net position or fund balance that is applicable to a future reporting period. Other items previously categorized as liabilities are now categorized as *deferred inflows*. A *deferred inflow* represents the acquisition of net position or fund balance that is applicable to a future reporting period. For example, revenues that have been earned but are not yet available in the governmental funds are now reported as *deferred inflows*. In the government-wide financial statements, the residual net of all of the accounts is now called *net position*. As discussed further in Note 10, these statements have been retrospectively applied resulting in a restatement of opening net position.

Notes to Basic Financial Statements

Pension Plan

Substantially all employees of the Borough participate in the Public Employees' Retirement System (PERS) administered by the State of Alaska.

2. Stewardship, Compliance and Accountability

Budgetary Accounting

The Borough follows these procedures in establishing the budgetary data reflected in the basic financial statements:

- A. During or prior to the sixth week preceding July 1, the Borough Manager submits to the Assembly a proposed operating budget for the fiscal year commencing the following July 1. The operating budgets include proposed expenditures and the means of financing them.
- B. Notice of public hearings is published and public hearings are conducted to obtain taxpayer comments.
- C. Prior to June 20, the budget is adopted and the Assembly, by ordinance, makes an appropriation for the monies required.
- D. Unencumbered appropriation balances may be transferred within a department by the Borough Manager at any time. At the request of the Borough Manager, or on its own initiative, the Assembly may transfer unencumbered balances from one department or fund to another.
- E. Formal budgetary integration is employed as a management control device during the year for most funds. Appropriations lapse at year-end, except for capital projects which adopt project-length budgets.
- F. Budgets for the governmental fund types are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Budgeted amounts included in the financial statements are as originally adopted, or as amended, by the Assembly.

3. Interfund Receivables, Payables, and Transfers

A schedule of interfund balances and transfers for the year ended June 30, 2013, follows:

June 30, 2013

Due from other funds:

Due to the General Fund from nonmajor governmental funds for short-term advances to cover capital costs

\$ 24,149

4. Cash and Investments

The Petersburg Borough utilizes a central treasury that is available for use by all funds. Each fund's portion of the central treasury is displayed on the balance sheet as "Cash and investments", or in the case of "negative cash," is included in "Due to other funds."

Reconciliation of Deposit and Investment Balances

The following is a reconciliation of the Borough's deposit and investment balances to the financial statements as of June 30, 2013.

| June 30, 2013 | Pooled Cash And Investments | Economic Fund | Totals |
|------------------------------|-----------------------------------|----------------------|-------------------------------|
| Bank deposits Investments | \$ 1,252,915 26,443,790 | \$ - 4,354,782 | \$ 1,252,915 30,798,572 |
| | \$ 27,696,705 | \$ 4,354,782 | \$ 32,051,487 |

Notes to Basic Financial Statements

| June 30, 2013 | Pooled Cash And Investments | Economic Fund | Totals |
|--|-----------------------------------|------------------|-------------------------------|
| Cash and investments Restricted cash and investments | \$ 26,509,541 1,187,164 | \$ 4,354,782 | \$ 30,864,323 1,187,164 |
| | \$ 27,696,705 | \$ 4,354,782 | \$ 32,051,487 |

Investment Policy

The Borough's general investment policy authorizes investments in:

- A. U.S. Treasury bills;
- B. Notes or bonds issued by the United States of America Treasury, U.S. government agencies, or government-sponsored enterprises, or the State of Alaska or its political subdivisions or other states of the United States:
- C. Federally insured or fully collateralized certificates of deposit of banks, credit unions, and savings and loan associations;
- D. Repurchase agreements collateralized by U.S. Treasury securities and marked-to-market; if repurchase agreements are overnight investments marked-to-market, it is not necessary if securities are over-collateralized (at least to one hundred two percent);
- E. Money market mutual funds whose portfolios consist entirely of U.S. government securities; and
- F. An investment pool authorized by Alaska statutes.

In addition to the above investments, the Borough's Economic Fund investment policy authorizes investments in:

- A. Corporate debt obligations of U.S. domiciled corporations with a credit rating of AA- or AA3 from Standard and Poor's or Moodys;
- B. Common and preferred stock of U.S. domiciled corporations listed on a national exchange or NASDAQ with a minimum market capitalization of five hundred million dollars, with concurrence of the finance committee. Domestic stock and mutual stock fund purchases are allowed for up to 60% of the total stock investment of the Economic Fund. Except in mutual funds, no individual stock may have a total cost that exceeds 5% of the total stock investment of the fund. However, market value of a stock, not in a mutual fund, may exceed 5% of the total stock investment of the fund:
- C. Equity/stock mutual funds listed on a national exchange with concurrence of the finance committee; and
- D. Bond mutual funds investing in high grade corporate government bonds with a minimum of a five-year track record and at least five hundred million dollars in asset value.

Notes to Basic Financial Statements

Investment transactions shall be made to insure long-term growth and future income recognizing that short-term market losses may result. All participants in the investment process shall seek to act responsibly as custodians of public trust. Portfolio maturities shall be staggered to avoid undue concentration of assets in a specific maturity sector. Maturities selected shall provide for stability of income and reasonable liquidity.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. To limit its exposure to custodial credit risk, Borough policy requires that all deposits and investments be fully insured or collateralized.

Investment maturities in general investments at June 30, 2013 are as follows:

| | | | Investment Maturities (In Years) | | | | |
|--------------------------|------------|------------|-------------------------------------|----|------------|--|--|
| June 30, 2013 | Fair Value | | Less Than 1 | | 1-5 | | |
| Investment type: | | | | | | | |
| Money market funds | \$ | 195,862 | \$ 195,862 | \$ | - | | |
| U.S. government agencies | | 498,170 | _ | | 498,170 | | |
| Municipal bonds | | 2,485,602 | 723,082 | | 1,762,520 | | |
| Certificates of deposit | | 22,442,267 | 6,302,226 | | 16,140,041 | | |
| Pooled investments | | 821,889 | 821,889 | | - | | |
| Total Investments | \$ | 26,443,790 | \$ 8,043,059 | \$ | 18,400,731 | | |

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. All of the U.S. government agency investments are rated AA+ by Standard and Poor's and Aaa by Moody. The Borough's municipal bonds of \$2,485,602 were rated as follows; muni bonds rated by Standard and Poor's: \$635,761 rated AA+, \$309,777 rated AA, \$289,335 rated AA-, \$357,913 rated A; muni bonds not rated by Standard and Poor's were rated by Moody's as follows: \$668,394 rated Aa3 and \$224,422 rated Aa2.

The pooled investments are invested with the Alaska Municipal League Investment Pool, Inc. (AMLIP). The AMLIP is an external investment pool which is rated AAAm for credit risk purposes. Alaska Statute 37.23 establishes regulatory oversight of the pool. The law sets forth numerous requirements regarding authorized investments and reporting. The share value of investments in the AMLIP is approximately equal to fair value.

Notes to Basic Financial Statements

Investment maturities in the Economic Fund investments at June 30, 2013 are as follows:

| | | | t Maturities 'ears) |
|-------------------------------------|--------------|-----------------|------------------------|
| | | Less Than | |
| June 30, 2013 | Fair Value | 1 | 1-5 |
| Investment type: | | | |
| Certificates of deposit | \$ 1,834,674 | \$ 755,856 | \$ 1,078,818 |
| Money market funds | 351,592 | 351,592 | |
| Total subject to interest rate risk | 2,186,266 | \$ 1,107,448 | \$ 1,078,818 |

The net proceeds of these advance refundings were deposited into an irrevocable trust with an escrow agent to provide debt service payments on the old bonds. The 2007 refunding bonds were called. At June 30, 2013, the amount of defeased debt outstanding associated with the 2012 refundings was \$4,145,000.

The remainder of this page left blank intentionally.

Notes to Basic Financial Statements

8. Fund Balances

Fund balances reported for the Borough's individual major funds and nonmajor funds in the aggregate on the governmental funds balance sheet is subject to the following constraints:

| | | | Library | | | |

9. Municipal Landfill Closure and Postclosure Liability

On March 16, 1998, the Borough entered into an agreement with Regional Disposal Company to transport and dispose of municipal solid waste. As a result, the Borough is no longer using the landfill for solid waste. The Borough has no intentions of closing the landfill in case it is needed again in the future. State and federal laws and regulations require the Borough to place a final cover on its landfill site and to perform certain maintenance and monitoring functions at the site for 30 years after closure.

The \$92,333 reported as landfill closure costs payable at June 30, 2013 represents the total estimated closure cost. This amount is based on what it would cost to perform all closure and post-closure care in 2013. Actual costs may be higher due to inflation, changes in technology or changes in regulations. At June 30, 2013, the Borough has not committed or assigned any fund balance to fund the cost of closure and post-closure monitoring, nor have any assets been restricted for this purpose.

Notes to Basic Financial Statements

However, the FY2014 Landfill Slope Stabilization Project will service to address long-standing State of Alaska concerns with the Borough's landfill and will also prepare the site for eventual site closure applications to the State. This project will likely decrease the effort required for final landfill closure.

10. Change in Accounting Principles - Adoption of GASB Pronouncements - Restatement

The Borough has adopted newly issued GASB pronouncement numbers 63 and 65, resulting in a change in presentation for the government-wide and enterprise fund financial statements. The new pronouncements require, among other things, that debt issuance costs be recognized as an expense in the year incurred, rather than capitalizing and amortizing these costs over the life of the debt. Retroactive restatement of net position is required in the year of adoption.

The beginning net position in the Electric, Harbor, Elderly Housing and Assisted Living Enterprise Funds and the Business-type Activities have been restated as follows:

| | Electric Enterprise Fund | Harbor and Port Facilities Enterprise Fund | Assisted Living Enterprise Fund | Nonmajor Enterprise Funds | Business- type Activities |
|--|--------------------------------|--|--|---------------------------------|---------------------------------|
| 2013 beginning net position, as previously presented Restatement; write off unamortized debt issuance costs | \$ 16,918,878 (14,846) | \$ 18,677,589 (8,315) | \$ 1,024,274 | \$ 2,845,101 | \$ 69,129,188 |
| | (14,040) | (0,313) | (7,040) | (3,201) | (30,200) |
| 2013 beginning net position, as restated | \$ 16,904,032 | \$ 18,669,274 | \$ 1,015,128 | \$ 2,841,820 | \$ 69,092,900 |

11. Defined Benefit Pension Plan

The Borough participates in the Public Employees' Retirement System (PERS). PERS is a cost-sharing multiple employer plan which covers eligible State and local government employees, other than teachers. The Plan was established and is administered by the State of Alaska Department of Administration to provide pension, postemployment healthcare, death, and disability benefits. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature.

The Plan is included in a comprehensive annual financial report that includes financial statements and other required supplemental information. The report is available at the following address:

Department of Administration
Division of Retirement and Benefits
P.O. Box 110203
Juneau, Alaska 99811-0203

Notes to Basic Financial Statements

Conversion to Cost Sharing

In April 2008, the Alaska Legislature passed legislation which converted the existing Public Employees Retirement System (PERS) from an agent-multiple employer plan to a cost-sharing plan with an effective date of July 1, 2008. Under the cost-sharing arrangement, the State of Alaska Division of Retirement and Benefits no longer tracks individual employer assets and liabilities. Rather, all plan costs and past service liabilities are shared among all participating employers.

That same year, the State of Alaska passed additional legislation which statutorily capped the employer contribution, established a state funded "on-behalf" contribution, and required that employer contributions be calculated against all PERS eligible wages, including wages attributable to the defined contribution plan described later in these footnotes.

Employee Contribution Rates

Regular employees are required to contribute 6.75% of their annual covered salary (2.97% for pension and 3.78% for healthcare). Police and firefighters are required to contribute 7.5% of their annual covered salary (3.29% for pension and 4.21% for healthcare).

Employer and Other Contribution Rates

There are three contribution rates associated with the pension and healthcare contributions and related liabilities:

Contractual Rate: This is the required funding rate for participating employers. The contractual rate is statutorily capped at 22% of eligible wages, subject to a wage floor, and other termination events. This 22% rate includes all PERS participating wages, including those wages attributable to employees in the defined contribution plan.

ARM Board Adopted Rate: This is the rate formally adopted by the Alaska Retirement Management Board. This rate is actuarially determined to calculate annual funding requirements of the Plan, without regard to the statutory rate cap. There are no constraints or restrictions on the actuarial cost method or other assumptions used in this valuation, other than those established and agreed to by the ARM Board.

Current legislation provides that the State of Alaska will contribute the difference between the ARM Board adopted rate and the contractual (statutory) rate. These additional contributions are recognized by each employer as an on-behalf payment and are reflected as revenue and expense/expenditure within the financial statements.

GASB 43 Rate: This is the rate used to determine the long-term pension and healthcare liability for plan accounting purposes in accordance with generally accepted accounting principles as established by GASB. Certain actuarial methods and assumptions for this rate calculation are mandated by GASB. For FY13, the rate uses an 8.00% pension discount rate and a 6.88% healthcare discount rate. Additionally, the GASB 43 rate disregards all future Medicare Part D payments.

The GASB 43 rate differs significantly from the ARM Board adopted rate as a direct result of differences in the actuarial valuation methodology and assumptions.

Notes to Basic Financial Statements

Contribution rates for the year ended June 30, 2013 were determined as part of the June 30, 2010 actuarial valuation and are as follows:

| | ARM Board | | | | | | | |
|---------------------------|-------------|---------|---------|--|--|--|--|--|
| | Contractual | Adopted | GASB 43 | | | | | |
| June 30, 2013 | Rate | Rate | Rate | | | | | |
| Pension | 9.67% | 15.75% | 24.95% | | | | | |
| Postemployment healthcare | 12.33% | 20.09% | 39.93% | | | | | |
| Total contribution rate | 22.00% | 35.84% | 64.88% | | | | | |

Annual Pension and Postemployment Healthcare Cost

The Borough is required to contribute 22% of covered payroll, subject to a wage floor. In addition, the State of Alaska contributed approximately 13.84% of covered payroll to the Plan. In accordance with the provisions of GASB Statement Number 24, the Borough has recorded the State on-behalf payment in the amount of \$695,524 as revenue and expense/expenditures in these financial statements. However, because the Borough is not statutorily obligated for these payments, this amount is excluded from pension and OPEB cost as described here.

| Year Ended June 30, | Annual Pension Cost | Annual OPEB Cost | Total Benefit Cost (TBC) | Borough Contri- butions (| % of TBC Contributed |
|---------------------|------------------------|------------------------|--------------------------------|---------------------------------|-------------------------|
| 2013 | \$ 388,794 | \$ 495,834 | \$ 884,628 | \$ 884,628 | 100% |
| 2012 | 434,783 | 478,050 | 912,833 | 912,833 | 100% |
| 2011 | 320,880 | 578,194 | 899,074 | 899,074 | 100% |

12. Defined Contribution Pension Plan

Employees hired after July 1, 2006 participate in PERS Tier IV, a defined contribution plan. The Plan is administered by the State of Alaska, Department of Administration. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature. The Alaska Retirement Management Board may also amend contribution requirements. Included in the Plan are individual pension accounts, retiree medical insurance plan and a separate Health Reimbursement Arrangement account that will help retired members pay medical premiums and other eligible medical expenses not covered by the medical plan.

Employee Contribution Rates

Employees are required to contribute 8.0% of their annual covered salary. This amount goes directly to the individual's account.

Notes to Basic Financial Statements

Employer Contribution Rates

The Borough is required to contribute the following amounts based on covered salary:

| June 30, 2013 | Other Tier IV | Police/Fire Tier IV |
|--|------------------|------------------------|
| Individual account | 5.00% | 5.00% |
| Retiree medical plan | 0.48% | 0.48% |
| Occupational death and disability benefits | 0.14% | 0.99% |
| | 5.62% | 6.47% |

In addition, the employer must contribute to the Health Reimbursement Arrangement. AS 39.30.370 establishes this contribution amount as "three percent of the average annual employee compensation of *all employees of all employers* in the plan". As of July 1, 2012, for actual remittance, this amount is calculated as a flat rate for each full time or part-time employee per pay period and approximates \$1,848 per year for each full-time employee, and \$1.18 per hour for part-time employees.

Employees are immediately vested in their own contributions and vest 25% per year in employer contributions. The Borough and employee contributions to PERS including the HRA contribution for the year ended June 30, 2013 were \$162,611 and \$137,819, respectively.

13. Deferred Compensation Plan

The Borough offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. In accordance with the Internal Revenue Code, all assets and income of the Plan are held in trust for the exclusive benefit of participants and their beneficiaries.

14. Risk Management

The Borough faces a considerable number of risks of loss, including (a) damage to and loss of property and contents, (b) employee torts, (c) professional liability; i.e., errors and omissions, (d) environmental damage, (e) workers' compensation; i.e., employee injuries, and (f) medical insurance costs of employees. Commercial policies, transferring the risk of loss, except for relatively small deductible amounts, are purchased for employee medical costs and certain other coverages. The Borough is a member of Alaska Public Entity Insurance (APEI), a governmental insurance pool. APEI provides insurance coverage for property and contents damage, torts, general and automobile liability, public officials and employees' liability, law enforcement professional liability and workers' compensation. The Borough has no coverage for potential losses from environmental damages. APEI is a public entity risk pool organized to share risks among its members. The Association's bylaws provide for the assessment of supplemental contributions from members in the event that losses and expenses for any coverage year exceed the annual contributions and income earned on such contributions for the year. Such supplemental contributions shall be based upon each member's annual deposit contribution in comparison to the aggregate annual deposit contributions of all members. The Association made no supplemental assessments during the year ended June 30, 2013.

Notes to Basic Financial Statements

Coverage limits and the deductibles on the policies have stayed relatively constant for the last several years.

15. Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by the grantor agencies, principally the federal and State governments. Any disallowed claims, including amounts already collected, would become a liability.

16. New Accounting Pronouncements

The Governmental Accounting Standards Board has passed several new accounting standards with upcoming implementation dates. Management has not fully evaluated the potential effects of these statements, but believes that that GASB Statement 68 will result in the biggest reporting change. Actual impacts have not yet been determined:

GASB 66 - Technical Corrections - 2012 - Effective for year-end June 30, 2014 - This statement contains certain technical corrections to prior GASB statements on the topics of Risk Financing, Operating Leases, Loan Purchases, and Servicing Fees.

GASB 67 - Financial Reporting for Pension Plans - Effective for year-end June 30, 2014 - This statement contains certain technical corrections to prior GASB statements on the topic of improving financial reporting by state and local governmental pension plans.

GASB 68 - Accounting and Financial Reporting for Pensions - Effective for year-end June 30, 2015 - This statement contains certain technical corrections to prior GASB statements on the topics of Net Pension Liability and Pension Expense.

GASB 69 - Government Combinations and Disposals of Government Operations - Effective for yearend June 30, 2015 - This statement contains certain disclosures to be made about government combinations and disposals of government operations to enable financial statement users to evaluate the nature and effects of these transactions.

GASB 70 - Accounting and Financial Reporting for Nonexchange Financial Guarantees - Effective for year-end June 30, 2014 - This statement contains reporting requirements when a government financially guarantees the obligations of another government, non-profit, or private entity without receiving equal value in exchange.

General Fund

The General Fund is established to account for the revenues and expenditures necessary to carry out basic governmental activities of the Borough such as public safety, public works, recreation, library, community development, administrative services, etc. Appropriations are made from the General Fund annually.

Revenue is recorded by source, i.e., taxes, charges for services, intergovernmental, etc. Expenditures are recorded first by function, then by activity and object of expenditure.

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are restricted to expenditures for particular purposes.

Miscellaneous Grants

This fund accounts for various operating-type grants from State and federal agencies.

National Forest Receipts - School

This fund is used to account for activity relating to National Forest Receipts that have been earmarked by the granting agency for education purposes.

National Forest Receipts - Streets and Roads

This fund is used to account for activity relating to National Forest Receipts that have been earmarked by the granting agency for street and road purposes.

Property Development

This fund is used to account for activity relating to the sale and/or purchase of Borough owned real property.

E911 Surcharge

This fund accounts for the operation, maintenance, and improvement of the Borough's enhanced 911 emergency communication system.

Borough Organizational

This fund accounts for three years of revenues received from the State of Alaska and the associated expenditures to transition to a borough.

Debt Service Fund

The Debt Service Fund accounts for the accumulation of monies for payments of various general obligation bonds. Servicing of this debt requires various annual and semi-annual payments of principal and interest. Financing is provided by the State of Alaska debt reimbursement program and transfers, determined annually by budget, from the General Fund.

Capital Project Funds

Capital Project Funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

Fire/EMS Facility

This fund accounts for the costs associated with replacing the Fire/EMS building.

Library Construction

This fund accounts for the library project.

Fishing Park

This fund accounts for the private donation and improvements to the Fishing Park.

Birch Street Rebuild

This fund accounts for the costs to rebuild the bridge structure to ensure safe travel for vehicles and pedestrians.

Paving Project

This fund accounts for the costs to rehabilitate and/or repave the core downtown streets of Petersburg.

Rasmus Enge Bridge Reconstruction

This fund accounts for reconstruction of the historic the Rasmus Enge Bridge to ensure safe travel for vehicles and pedestrians.

Economic Development

This fund accounts for the monies received from the United States Department of Agriculture (USDA) to be used for economic assistance projects.

Enterprise Funds

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the government's assembly is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the government's assembly has decided that periodic determination of net income is appropriate for accountability purposes.

Electric Utility

This fund is used to account for the operations of the electric utility.

Water Utility

This fund is used to account for the operations of the Borough water system.

Wastewater Utility

This fund is used to account for the operations of the wastewater utility.

Sanitation Utility

This fund is used to account for the Borough landfill and refuse collection activities.

Harbor and Port Facilities

This fund is used to account for the operations of the harbors and port.

Elderly Housing

This fund is used to account for the operations of the elderly housing rental units.

Assisted Living

This fund is used to account for the operations of the assisted living facility.

Notes to the Schedules of Expenditures of Federal Awards and State Financial Assistance Year Ended June 30, 2013

1. Basis of Presentation

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance include the grant activity of Petersburg Borough and are presented on the modified accrual basis of accounting. The information in the schedules is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits.*

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Honorable Mayor and Borough Assembly Petersburg Borough

We have audited, in accordance with the auditing standards generally accepted in the united States of America and the standards applicable to financial audits contained in *Government Auditing Standards issued by the Comptroller General of the United States*, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Petersburg Borough as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Petersburg Borough's basic financial statements and have issued our report thereon dated November 6, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Petersburg Borough's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Petersburg Borough's internal control. Accordingly, we do not express an opinion on the effectiveness of Petersburg Borough's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Petersburg Borough's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance For Each Major Federal Program and Report on Internal Control Over Compliance Required by OMB Circular A133

Honorable Mayor and Borough Council Petersburg Borough

Report on Compliance for Each Major Federal Program

We have audited Petersburg Borough's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Petersburg Borough's major federal programs for the year ended June 30, 2013. Petersburg Borough's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Petersburg Borough's basic financial statements include the operations of the Petersburg School District which received \$607,228 in federal awards which is not included in the schedule during the year ended June 30, 2013. Our audit, described below, did not include the operations of the Petersburg School District because it was subjected to a separate audit in accordance with OMB Circular A-133. In addition, Petersburg Borough's basic financial statements also include to operations of Petersburg Medical Center. Our audit described below did not include the operations of the Petersburg Medical Center because it was subjected to a separate audit; however it did not meet the threshold for an audit in accordance with OMB Circular A-133.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Petersburg Borough's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Petersburg Borough's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Petersburg Borough's compliance.

Opinion on Each Major Federal Program

In our opinion, Petersburg Borough complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of Petersburg Borough is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Petersburg Borough's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Petersburg Borough's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of with OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on Compliance For Each Major State Program and Report on Internal Control Over Compliance Required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*

Honorable Mayor and Borough Council Petersburg Borough

Report on Compliance for Each Major State Program

We have audited Petersburg Borough's compliance with the types of compliance requirements described in the State of Alaska Audit Guide and Compliance Supplement for State Single Audits that could have a direct and material effect on each of Petersburg Borough's major state programs for the year ended June 30, 2013. Petersburg Borough's major state programs are identified in the accompanying Schedule of State Financial Assistance. Petersburg Borough's basic financial statements include the operations of the Petersburg School District which received \$7,554,547 in state awards which is not included in the schedule during the year ended June 30, 2013. Our audit, described below, did not include the operations of the Petersburg School District because it was subjected to a separate audit in accordance with State of Alaska Audit Guide and Compliance Supplement for State Single Audits. Our audit, described below, did not include the operations of the Petersburg School District because it was subjected to a separate audit in accordance with State of Alaska Audit Guide and Compliance Supplement for State Single Audits. In addition, Petersburg Borough's basic financial statements also include to operations of Petersburg Medical Center. Our audit described below did not include the operations of the Petersburg Medical Center because it was subjected to a separate audit; however it did not meet the threshold for an audit in accordance with State of Alaska Audit Guide and Compliance Supplement for State Single Audits.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Petersburg Borough's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the State of Alaska Audit Guide and Compliance Supplement for State Single Audits. Those standards and the State of Alaska Audit Guide and Compliance Supplement for State Single Audits require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about Petersburg Borough's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of Petersburg Borough's compliance.

Opinion on Each Major State Program

In our opinion, Petersburg Borough complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of Petersburg Borough is responsible for establishing and maintaining effective internal control over compliance with the type of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Petersburg Borough's internal control over compliance with the types of requirements that could have a direct and material effect on a major state program to determine our auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program, and to test and report on internal control over compliance in accordance with the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Petersburg Borough's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Accordingly, this report is not suitable for any other purpose.
